Vanco EVMX4X4 4X4 HDMI Matrix IP ELAN Driver
V1.0 rev20160406

Overview

This driver integrates a Vanco EVMX4X4 4X4 HDMI Matrix into your ELAN control system. The driver was created and tested on a gSC2 series controller using g!Viewer. To use this driver, add the driver to the system, and follow the setup.

Specification

This package includes the following:
- Compiled ELAN Driver (EVMX4X4_IP.EDRVC)
  o Controls hardware device.

IP Connection

The driver communicates to and from the device through an IP connection and must be connected in order for the driver to function.

Setup

1.   Add the driver to the controller as a "Zone Controller" in g!Tools Configurator under the "Media" menu.

2.   Enter the IP Address of the Vanco EVMX4X4 4X4 HDMI Matrix into the "IP Address" field and the Port in the "Port" field in the driver's configuration. **Default Port is 4001.**

3.   Configure the inputs under "Sources" and the outputs under "Zones".

4.   Device specific commands (Power and Present Management) are available for event mapping.
