

**Vanco EVMX44QI 4X4 HDMI Matrix IP ELAN Driver**  
V1.0 rev20160531

**Overview**

This driver integrates a Vanco EVMX44QI 4X4 HDMI Matrix into your ELAN control system. The driver was created and tested on a gSC2 series controller using g!Viewer. To use this driver, add the driver to the system, and follow the setup.

**Specification**

This package includes the following:

- Compiled ELAN Driver (EVMX44QI\_IP.EDRVC)
  - Controls hardware device.

**TCP/IP Connection**

The driver communicates to and from the device through a TCP/IP connection and must be connected in order for the driver to function.

**Setup**

1. Add the driver to the controller as a "Zone Controller" in g!Tools Configurator under the "Media" menu.
2. Enter the IP Address in the IP Address parameter that the matrix is connected to.
3. Configure the inputs under "Sources" and the outputs under "Zones".
4. Device specific commands (Power Management) are available for event mapping.
