

# RS-232 and IP Router

## CONNECTED THROUGH NETWORK

*No LAN port on your matrix or switcher for control?*

## **NO PROBLEM!**

- Adds the ability to connect via LAN for IP control to matrix units, switchers, etc. with only RS-232 connectivity
- Simple and easy to use interface for standalone control
- Allows for third party integration via IP
- LAN/Wi-Fi to serial adapter that allows for remote access, configuration, and the ability to control any serial device over an IP network
- Able to be used directly wired from a network, or wirelessly using wifi
- Converts commands received over UDP or TCP/IP to Serial
- Supports WEP/WAP-PSK/WAP2-PSK/WAPI

*Recommended products to be used with RS232-IP: HDMISW41, 280595, 280564, HDMX4K44, EVSW1061, EVSW1040, EVSW1042, EVSW21MV, PA66AMP and PA66KIT*

**Part Number: RS232-IP**
