

# Outdoor Audio Products & Solutions

Power your outdoor projects with solutions built to perform beyond the walls. Designed for durability, clarity, and seamless integration, Beale Street Audio outdoor products deliver reliable sound in any outdoor environment.

We proudly offer a complete lineup of outdoor audio products engineered for long-term performance in residential and commercial applications. From landscape speakers to subwoofers, accessories and more, Beale Street Audio delivers weather-resistant solutions that simplify system design and installation so you can confidently spec, install, and enjoy premium outdoor sound.

## Speakers

Engineered for durability and clarity, our outdoor speakers deliver full, balanced sound in open-air environments. Weather-resistant construction ensures long-term performance while blending seamlessly into the environment.

## Designed for Versatility

### 3 Ways to Use the WPV-BSC

The WPV-BSC speaker line-up adapts to the environment, not the other way around. Hang it, mount it, or stake it - three versatile install options designed to deliver consistent audio performance in any outdoor environment.

[Learn more >](#)

### Hang It

Suspend the speaker from cables to for overhead coverage in patios, pergolas, and open-air venues. Ideal for even sound dispersion without wall space

[Learn more >](#)

### Mount It

Mount the speaker directly to a wall for clean, focused coverage. Adjustable positioning ensures optimal sound at any angle or direction.

[Learn more >](#)

### Stake It

Plant or stake in the ground with the landscape accessory kit. Perfect for gardens and pathways, blending in while delivering consistent audio performance.
