

Architectural Sound

Beale Street Audio sets itself apart in architectural and outdoor audio with cutting-edge engineering, exceptional performance, and patented designs made for effortless installations.

Beale Street Audio architectural speakers with patented Sonic Vortex technology eliminate sound bleed and direct it where it's meant to be heard. With 8ohm and 70/100V options, our speakers, subwoofers, and amplifiers deliver deeper outputs than traditional in-ceiling/wall speakers. Transform any space into an immersive audio experience with Beale Street Audio solutions.

Speakers & Subwoofers

High-performance speakers and subwoofers featuring Sonic Vortex Technology that delivers rich, balanced sound with powerful low-end response, enhancing audio experiences with clarity, depth, and consistent performance.
